Independent | Art Director & Designer

Apr. 2021 — present

Working as a **freelance creative and design** consultant, **creating personal projects, and writing a screenplay**. In 2021, I took part in **MADS'** (a school for young ad creatives) graduation review as a **jury** member.

BBDO Moscow | Art Director

Nov. 2017 — Apr. 2021

Partnering with a copywriter, I was responsible for **WWF, Yandex, Mars, and Dodo Pizza** campaigns, working under the direct supervision of the ECD. I became the **#1 most awarded Art Director** in Russia in 2020 & 2021.

Birds Records, an integrated campaign for **WWF x Yandex Music**, became **the most awarded Eastern European ad of all time**, getting recognition at almost all the major shows, including the country's first **Eurobest Grand Prix**. The project became a media hit, generating **1+ billion unpaid impressions**.

We launched **Birds Records** with a **unique music video** called **Wild**. I spent over 3 months overseeing the work of 20 illustrators, artists, and animators. The video received widespread public acclaim, **39 global awards**, a late-night show invitation, and an **official selection** from **Annecy**, one of the world's top animation festivals.

Open Source Pizza for **Dodo Pizza**, an integrated campaign focusing on **AI and data**, became the brand's most successful ad. A local company attracted partners from 14 countries, generating **400+ million unpaid impressions with a zero media budget**. On the launch day, we even pissed off some loyal customers by selling our entire supply of exclusive pizzas in just the first 3 hours. The project won **37 global awards, including One Show, Webby, Epica, and Art Directors Club of Europe**.

Our creative team **solely led Yandex Market** (basically Russian Amazon) projects in 2017-2018, **executing over 100 creative and product briefs**. We helped launch a new marketplace (**Beru**), getting recognized at **Effie Awards**. Later, we kept our client, **winning Russia's biggest pitch** of the year.

In 2021, we **added a new long-term client** to the agency's portfolio — **A101** (a real estate holding company).

Leo Burnett Moscow | Art Director

Jun. 2016 — Nov. 2017

Partnering with a copywriter, I was responsible for **360° McDonald's, Renault, and ABI Product** campaigns.

We brought the forgotten **McDonald's Monopoly** promo back to Russia, winning the **2017 Effie Bronze** for Outstanding Business Results. Next year's campaign outcome was even better: **Effie Bronze, two Tagline Awards Gold, and a Bronze**.

The Work of Three, a TV spot for **ABI Product** (a local sausage brand), helped increase the brand's popularity in the region. It won **Red Apple Bronze** and **Art Directors Club of Russia Silver** in the Film category.
